

| Code | Description | Size | Colour |
|-------|------------------------------------|-------|--------|
| 01533 | Holdfast Billstickers Poster Paste | 14 Kg | Cream |

1. Description

Holdfast Billstickers Poster paste is a highly refined and purified Sodium Carboxymethylcellulose.

2. Characteristics

- Handles all normal wallpapers and paper backed vinyl's
- Easy mixing & no lumps
- Thickens rapidly, ready in 10-15 minutes
- Good slip slide action
- Contains an efficient fungicide and is non-staining

3. Technical Data

| | |
|---|-----------------------|
| Smell: | Odourless |
| Taste: | Tasteless |
| Colour: | White Cream Powder |
| NaCMC content (dry basis): | Min 99.50% |
| Moisture as Packed: | Max 10.00% |
| Sodium Chloride content (dry basis): | Max 0.50% |
| Sodium Glycolate content (dry basis): | Max 0.40% |
| Degree of Substitution: | 0.75 – 0.85 |
| Sodium content: | 7.5 – 9.0 |
| Sulphated Ash content | 23.0 – 27.0 |
| pH (1% solution) | 6.5 – 8.0 |
| Viscosity, 1%, 25°C | 2500 – 3500m |
| Brookfield LVT | 0.4 N/mm ² |
| Typical Particale size > 0.075: >1.5mm | Min 85% Max 0.5% |

**This varies according to ambient conditions such as temperature, humidity, substrate etc*

3. Applications

Holdfast Billstickers Poster Paste will bond to most surfaces provided they are clean and dry.

However, as a result of a natural process the viscosity of cellulose gum may decrease in time. We guarantee that the product will meet the viscosity specification for 12 months after the indicated "Manufacturing Date". After these 12 months the products can still be used safely up to the indicated shelf life end date, but may need a slight dosage correction in order to give optimum performance in the application.

Warning: Product has limitations. Please ensure when using this product that you read the instructions carefully. Soudal recommends to test prior due to the diversity of substrates and applications that are out of Soudal's control. Soudal cannot accept accountability for adverse results.

4. Packaging

14 kg

5. Shelf Life

36 months

6. Regularity Compliance

Billsticker Poster PASTE complies with the requirements contained in the following regulations and standards. Food Chemicals Codex, 21 CFR 182. 1745, JECFA, the purity criteria in the current EC Directive, Japan's Specifications and Standards for Food Additives, and the National Standard of the People's Republic of China. Billsticker Poster PASTE also conforms to the monographs of "Camellose Sodium" or "Carboxymethylcellulose Sodium" in the current Ph. Eur, USP/NF, JP, and several local pharmacopeia's

7. Health and Safety Recommendation

- Apply the usual industrial hygiene.
- Please refer to MSDS for more detailed information

Remark

The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. In every case it is recommended to carry out preliminary experiments.

If any clarification is required, please contact Soudal Technical Services or email info@soudal.co.nz.
