

Code	Description	Size	Colour
48801	Gorilla H-Packers Original 1.5mm	100 pk	Yellow
48802	Gorilla H-Packers Original 2.0mm	100 pk	Orange
48803	Gorilla H-Packers Original 3.0mm	100 pk	Red
48804	Gorilla H-Packers Original 5.0mm	100 pk	Blue
48805	Gorilla H-Packers Original 6.0mm	100 pk	Black
48806	Gorilla H-Packers Original 4.0mm	100 pk	Grey
48807	Gorilla H-Packers Original 10.0mm	100 pk	Green

1. Description

Gorilla H-Packers Original provide accurate spacing and positioning of building elements.

2. Characteristics

- Snappable
- Can be mechanically fixed
- Durability of at least 50+ years under normal use.

3. Technical Data

Visual:	Solid Form
Material:	80% HDPE (High Density Polyethylene) / 20% HIPS(High Impact Polystyrene)
Length:	96mm
Width:	46mm
Durability:	50+ Years minimum
Soft Point:	100°C
Melt Point:	120°C →130°C
VOC:	N/A

4. Applications

- Creating effect consistent spaces between substrates.
- Shim packing for windows and doors
- Packing out, and levelling out uneven surfaces

5. Packaging

Cardboard Box, 100 pack.

Remark

The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. In every case it is recommended to carry out preliminary experiments.

If any clarification is required, please contact Soudal Technical Services or email sales@soudal.co.nz.
