LOOK AFTER IT!**

## HOW TO CLEAN YOUR SOUDAL CLICK & FIX FOAM GUN

(When swapping empty cans to prevent blockages)

### WHAT YOU NEED

1x Soudal Expanding Foam Cleaner  
1x Used Soudal Pro Foam Gun (Click & Fix)

### STEP 1

**WHEN SWAPPING EMPTY CANS, TURN FLOW ADJUSTMENT KNOB OFF**

Keeping bayonet opening away from you, unclick the can of Soudal Expanding Foam. Spray wash the bayonet head to remove any excess foam. Click and turn to fully engage the Soudal Expanding Foam Cleaner can on to the gun.

### STEP 2

Pull gun trigger until all foam is expelled, repeat process. Ensure foam waste/cleaner is disposed of appropriately. Keeping bayonet opening away from you remove the Soudal Expanding Foam Cleaner can. Click and turn to fully engage the New Soudal Expanding Foam can on to the Soudal Click & Fix adaptor.

### STEP 3

Release the flow adjustment knob lightly and dispense foam immediately to fill the entire gun with foam. Tighten the flow adjustment knob to fully closed until ready to use again. Store Soudal Expanding Foam in a vertical position (gun upwards - out of direct sunlight). Ensure to shake can well before next use.
